

# Customer Lock by Freento

Extension for Magento 2

## Extension description

There is no way to block any user in Magento 2 but sometimes it is very necessary. In this situation the Customer Lock extension will help. The Customer Lock extension allows you to lock or unlock any customer using the button in the menu on the customer edit page. In addition, the extension allows you to lock/unlock several customers at once.

### Main Features:

- Lock/unlock any customer
- Lock/unlock several customers at once

## Extension Installation

The extension is distributed for free and can be installed from any of these channels:

### Composer Installation

1. Login to your account on <https://freento.com> website
2. Open My Composer Packages section in your account and follow the instructions there

### Installation from Commerce Marketplace

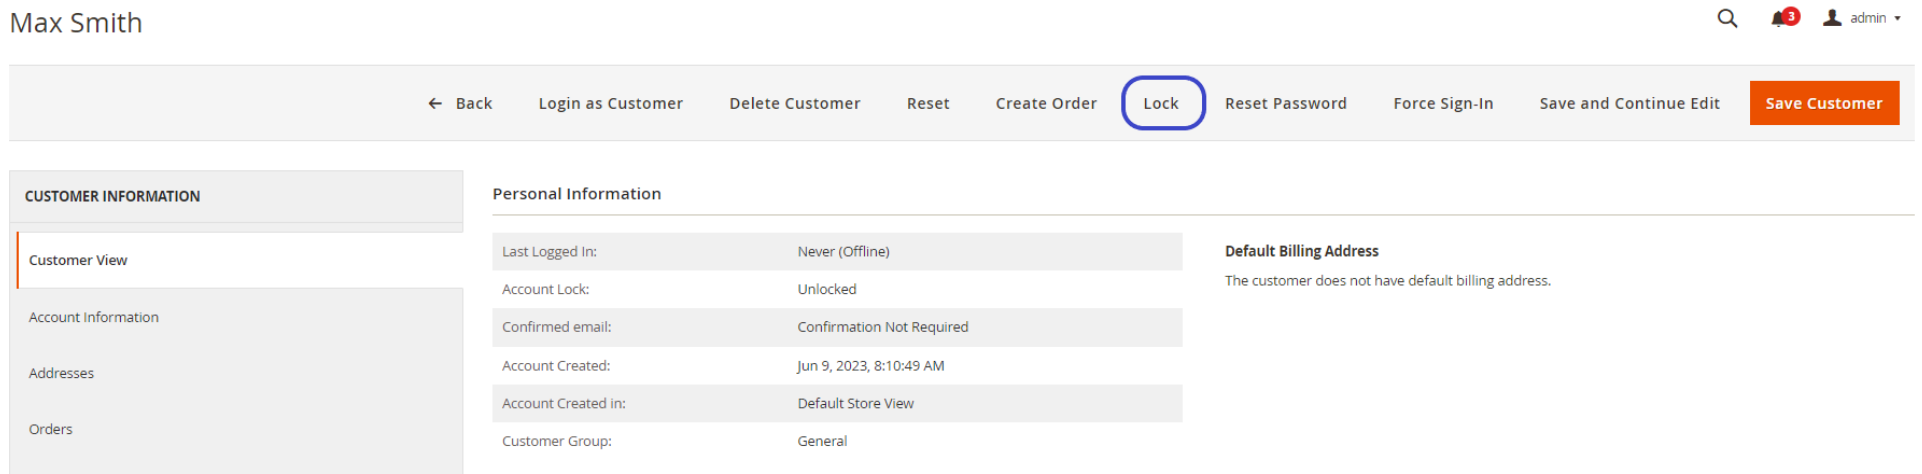

1. Login to your account at Commerce Marketplace
2. Go to “My Purchases” section
3. Follow the instructions in the “How to Install” section

Run these steps after the extension installation:

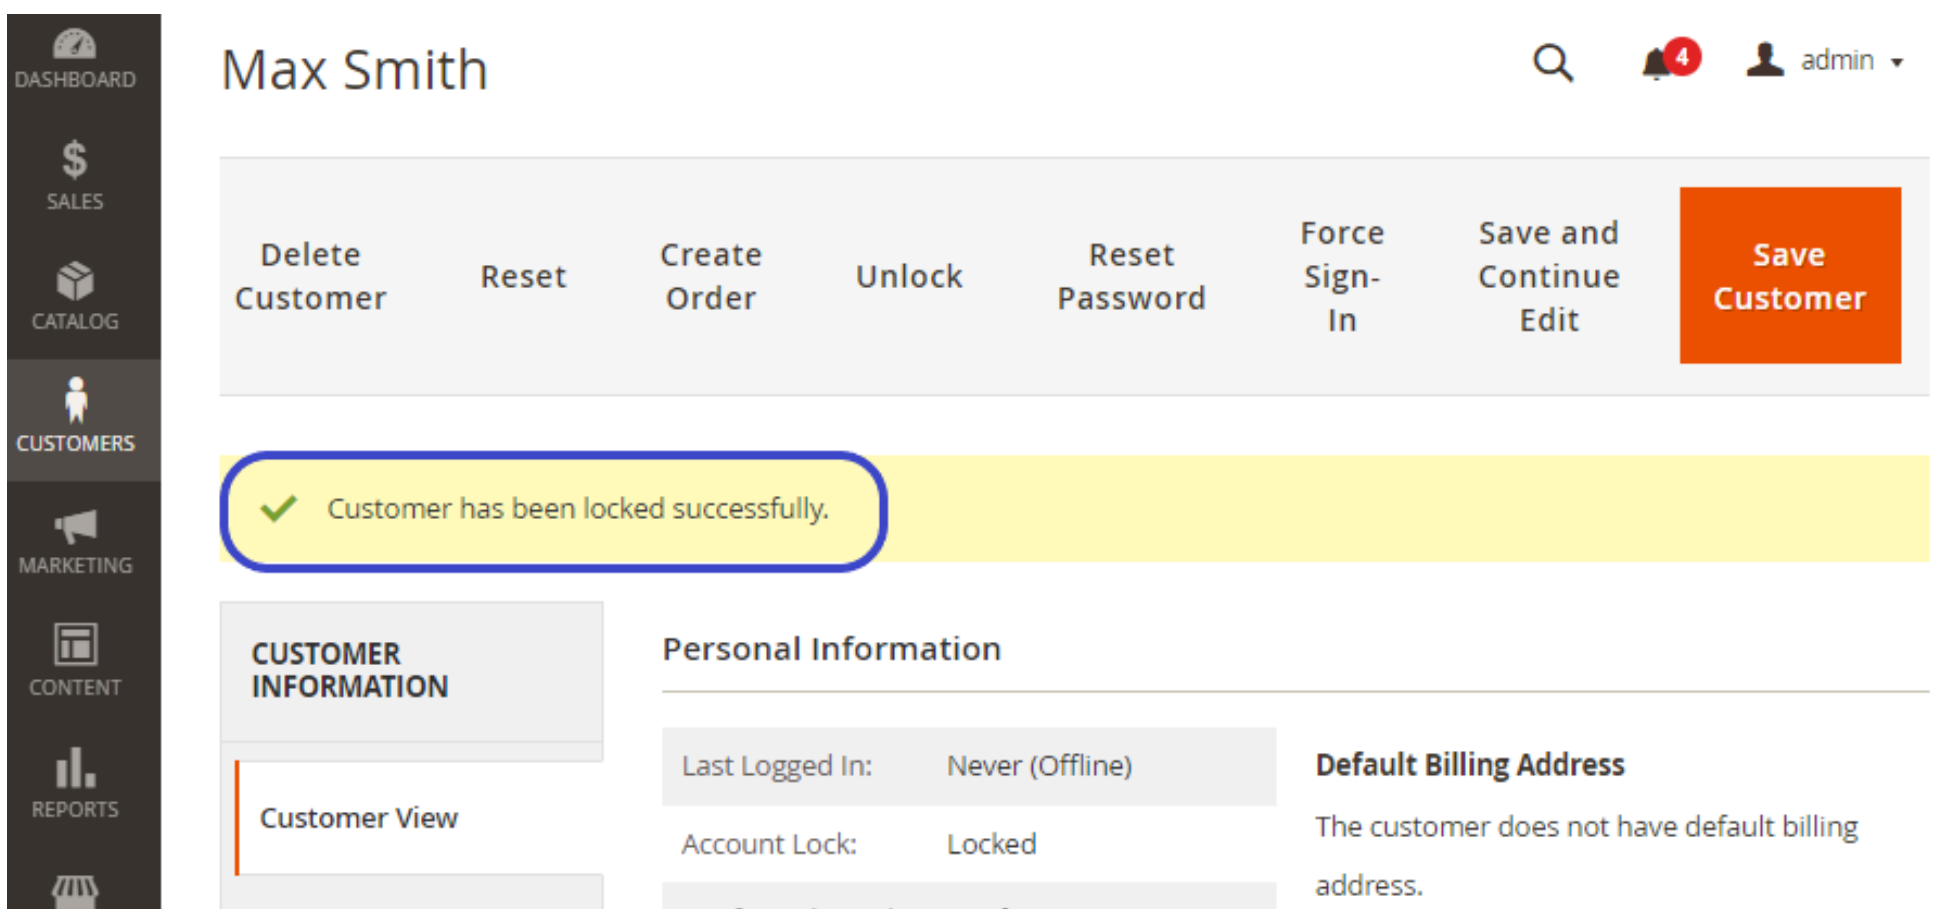

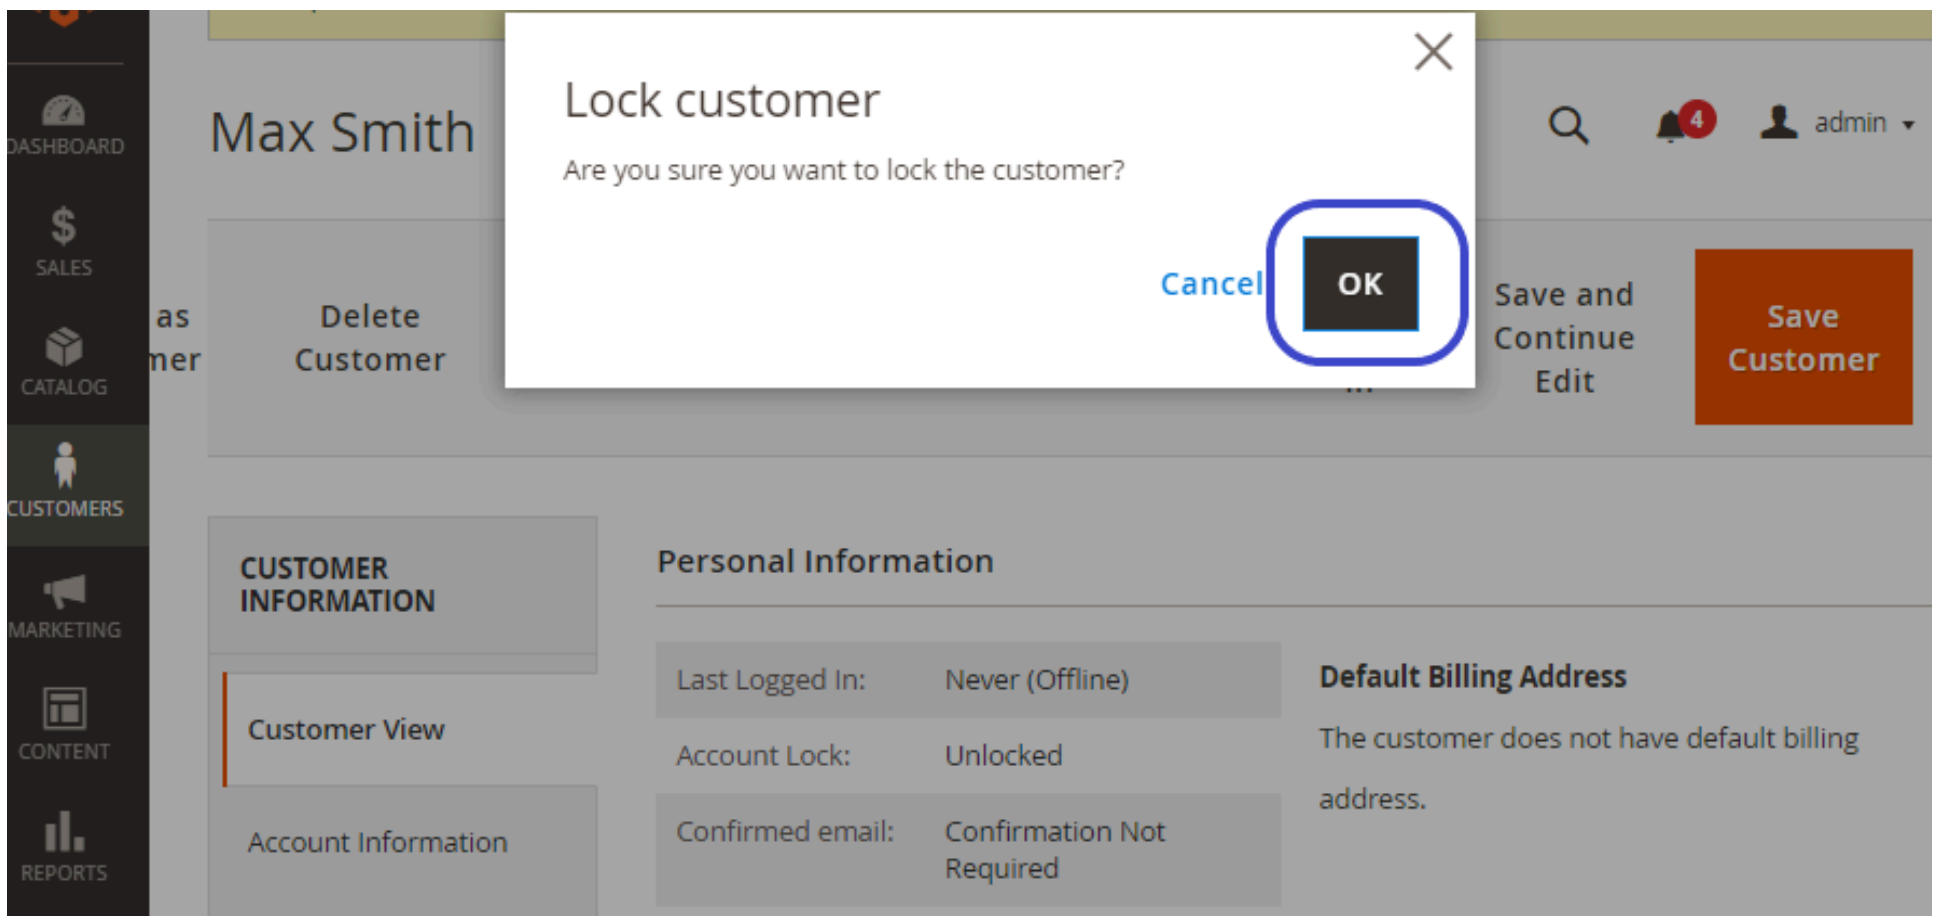

1. `bin/magento setup:upgrade`
2. `bin/magento setup:di:compile`
3. `bin/magento setup:static-content:deploy`

**Extension usage**

1. Install the extension and a “Lock” control will appear on the customer information page:
2. If you need to lock the customer, you click the Lock button at the top.

3. Then a confirmation window will appear and the customer will be locked after confirmation:

4. The customer receives a message on the frontend that their account is restricted

Default welcome msg! Sign In or Create an Account

10. Access control management. If you don't want some admin roles to access the "Customer Lock" tab on the customer page, you can disable the "Customer Lock" ACL resource on the admin role edit screen.

Admin > System > Permissions > User Roles > open the required role and in the "User Resources" section turn off / turn on the "Customer Lock" module.

The screenshot shows the 'Admin2' role configuration page. The 'Role Resources' section is active, displaying a tree view of resources. The 'Freento Lock/Unlock Customer' resource is highlighted with a blue circle. The tree view includes the following resources:

- Delete assets
- Create folder
- Delete folder
- Templates
  - Save Template
  - Apply Template
  - Delete Template
- Design
