

Customer Purchases

Magento 2 Extension

Extension description

With the Customer Purchases extension you get a powerful customer order report directly on the customer information page.

The report appears as an individual tab on the customer page and contains data associated with a customer orders:

- order and its data
- Product and SKU
- shipping/payment method
- and even discounts that were applied to an order

All report columns are sortable and almost all are filterable.

Moreover, you can export the resulting report for further importing and analysis.

Main Features:

- Exhaustive list of report columns
- Columns are filterable and sortable
- Order #, Product and Applied Discount Rules columns are clickable
- Built-in export feature
- Restrict Customer Purchases tab appearance on the admin role level via ACL resource
- Export reports to CSV or Excel XML

Extension Installation

Composer

1. Login to your account on <https://freento.com> website
2. Open My Composer Packages section in your account and follow the instructions there

Direct upload

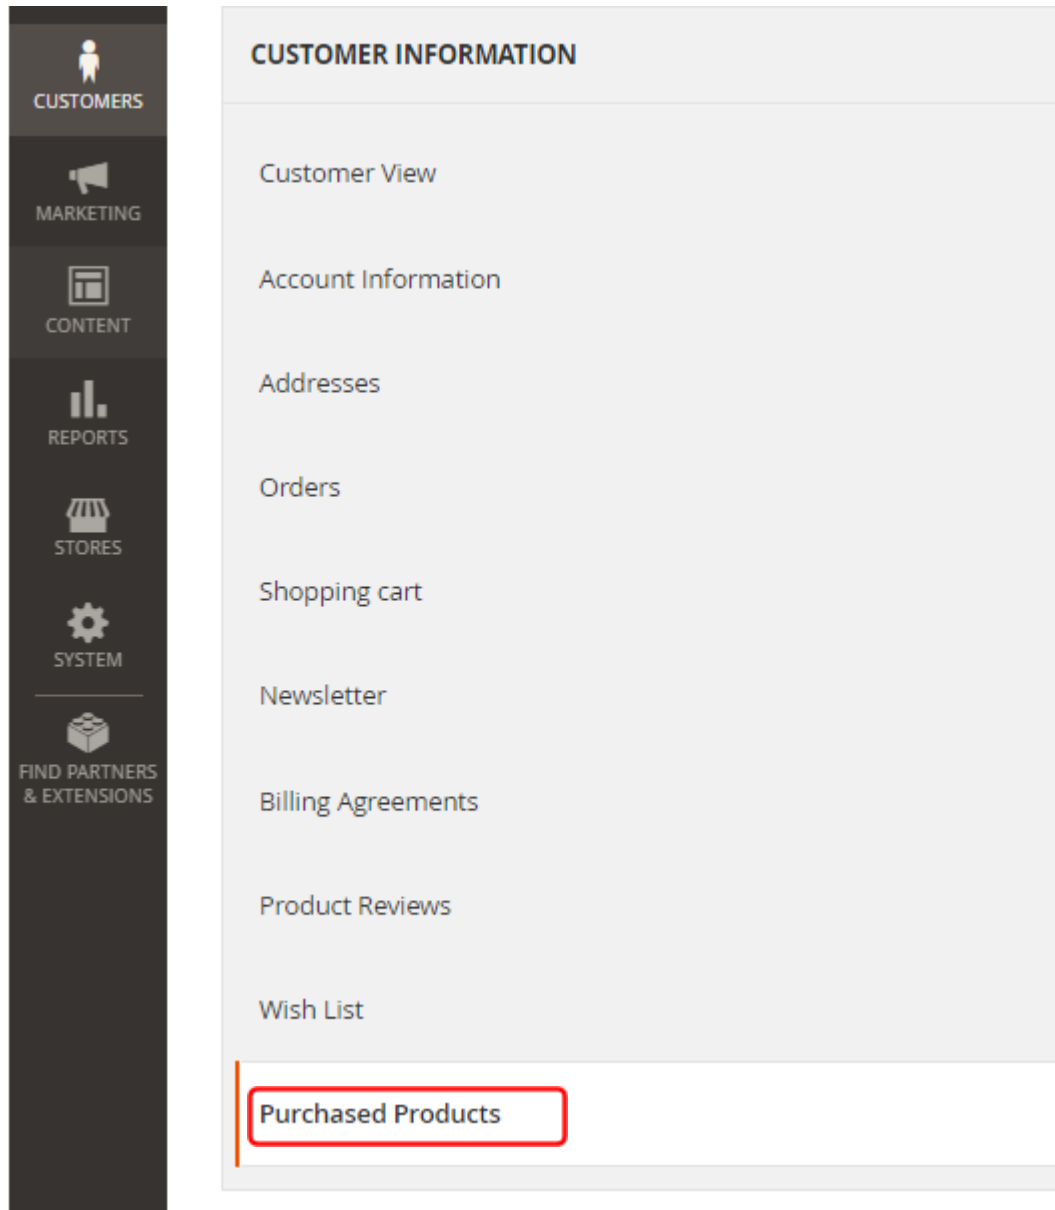

1. Unpack the .zip file you've downloaded;
2. Connect to the server where the website source folder is located with FTP/SFTP client (WinSCP, Filezilla, Cyberduck, etc);
3. Upload the package directly into your Magento root folder

Do these steps after the extension installation:

1. bin/magento setup:upgrade
2. bin/magento setup:di:compile
3. bin/magento setup:static-content:deploy

Extension usage

1. Install the extension and a new tab will appear on the customer information screen:

2. Once expanded, the tab will list all orders of the customer:

4. Access control management

If you don't want some admin roles to access the "Customer Purchases" tab on the product edit screen, you can disable the "Customer Purchases" ACL resource on the admin role edit screen:
